HANKISON
AN SPX BRAND

HANKISON REFRIGERATED COMPRESSED AIR DRYERS

Hankison **HPR** Series Refrigerated Air Dryers deliver the right solutions for compressed air treatment. HPR series non-cycling refrigerated compressed air dryers offer the right combination of technology and simplicity to keep your air system at a dry 38°F (+3°C) pressure dew point. All HPR series dryers are built for durability in a space-saving design. Sturdy sheet metal steel is formed and protected by an epoxy-based powdercoat finish. Reliable reciprocating refrigeration systems use environmentally friendly R-134a refrigerant.

HPR*plus* Series Coldwave™ refrigerated compressed air dryers feature Hankison's most advanced heat exchanger technology. Being the global leader in compressed air treatment is what continues to set the Hankison brand apart. Since L. E. Hankison patented the Condensifilter™ (forerunner to the refrigerated air dryer) in 1943, Hankison engineers have set the industry standard for refrigerated dryer technology. Coldwave™ heralds the next generation of Hankison high performance refrigerated dryers designed for quality and reliability.
